Office of Inspector General

<https://oig.hhs.gov>

The mission of the Office of Inspector General (OIG), as mandated by Public Law 95-452, as amended, is to protect the integrity of the Department of Health and Human Services (HHS) programs, as well as the health and welfare of beneficiaries served by those programs. This statutory mission is carried out through a nationwide network of audits, investigations, and inspections conducted by the following operating components:

Office of Audit Services

The Office of Audit Services (OAS) provides auditing services for HHS, either by conducting audits with its own audit resources or by overseeing audit work done by others. Audits examine the performance of HHS programs and/or its grantees and contractors in carrying out their respective responsibilities and are intended to provide independent assessments of HHS programs and operations. These assessments help reduce waste, abuse, and mismanagement and promote economy and efficiency throughout HHS.

Office of Evaluation and Inspections

The Office of Evaluation and Inspections (OEI) conducts national evaluations to provide HHS, Congress, and the public with timely, useful, and reliable information on significant issues. These evaluations focus on preventing fraud, waste, or abuse and promoting economy, efficiency, and effectiveness of departmental programs. To promote impact, OEI reports also present practical recommendations for improving program operations.

Office of Investigations

The Office of Investigations (OI) conducts criminal, civil, and administrative investigations of fraud and misconduct related to HHS programs, operations, and beneficiaries. With investigators working in all 50 States and the District of Columbia, OI utilizes its resources by actively coordinating with the Department of Justice and other Federal, State, and local law enforcement authorities. The investigative efforts of OI often lead to criminal convictions, administrative sanctions, and/or civil monetary penalties.

Office of Counsel to the Inspector General

The Office of Counsel to the Inspector General (OCIG) provides general legal services to OIG, rendering advice and opinions on HHS programs and operations and providing all legal support for OIG's internal operations. OCIG represents OIG in all civil and administrative fraud and abuse cases involving HHS programs, including False Claims Act, program exclusion, and civil monetary penalty cases. In connection with these cases, OCIG also negotiates and monitors corporate integrity agreements. OCIG renders advisory opinions, issues compliance program guidance, publishes fraud alerts, and provides other guidance to the health care industry concerning the anti-kickback statute and other OIG enforcement authorities.

Notices

THIS REPORT IS AVAILABLE TO THE PUBLIC
at <https://oig.hhs.gov>

Section 8L of the Inspector General Act, 5 U.S.C. App., requires that OIG post its publicly available reports on the OIG Web site.

OFFICE OF AUDIT SERVICES FINDINGS AND OPINIONS

The designation of financial or management practices as questionable, a recommendation for the disallowance of costs incurred or claimed, and any other conclusions and recommendations in this report represent the findings and opinions of OAS. Authorized officials of the HHS operating divisions will make final determination on these matters.

INTRODUCTION

BACKGROUND

Title XVIII of the Social Security Act established the Medicare program. The Centers for Medicare & Medicaid Services (CMS) administers the Medicare program through Medicare contractors (contractors), including Part B Carriers that process and pay Medicare claims. Contracts between CMS and the contractors define the functions performed by the contractors and provide for the reimbursement of allowable administrative costs incurred in the processing of Medicare claims.

Following the close of each fiscal year (FY), contractors submit to CMS a Final Administrative Cost Proposal (FACP), which reports the Medicare administrative costs incurred during the year. The FACP and supporting data provide the basis for the CMS contracting officer and contractor to negotiate a final settlement of allowable administrative costs. When claiming costs, contractors must follow cost reimbursement principles contained in part 31 of the Federal Acquisition Regulation (FAR) and other applicable criteria.

During the audit period, which covered October 1, 2004, through September 30, 2008, CMS contracted with TrailBlazer Health Enterprises, LLC (TrailBlazer), to serve as a Part B Carrier for Colorado, New Mexico, Oklahoma, Texas, and the Indian Health Service. Trailblazer reported Medicare administrative costs totaling \$319,875,868.

TrailBlazer, based in Dallas, Texas, is a wholly owned subsidiary of BlueCross BlueShield of South Carolina (BlueCross). BlueCross provided certain management and other operational support services for TrailBlazer, including accounting, human resources, legal, and general corporate administration. For a portion of our audit period, Palmetto GBA, LLC, also a wholly owned subsidiary of BlueCross, performed some of these services for TrailBlazer, including Medicare cost accounting and financial reporting.

OBJECTIVE, SCOPE, AND METHODOLOGY

Objective

Our objective was to determine whether the administrative costs that TrailBlazer claimed on its cost proposals were reasonable, allowable, and allocable in accordance with part 31 of the FAR and the Medicare contract.

Scope

Our audit covered the period October 1, 2004, through September 30, 2008 (FYs 2005 through 2008). For this period, TrailBlazer reported final administrative costs to CMS totaling \$319,875,868.

In planning and performing this audit, we reviewed TrailBlazer's internal controls for allocating costs to cost objectives in accordance with the FAR and the Medicare contract. Our objective

did not require us to review TrailBlazer's overall internal control structure. We limited our review to obtaining an understanding of TrailBlazer's procedures for identifying and reporting cost claims to CMS. We used the latest FACP that we were given for each year as the base for the final settlement amount of allowable administrative costs.

Methodology

To accomplish our objective, we:

- reviewed applicable Medicare laws, regulations, and guidelines, including the FAR part 31 Contract Cost Principles and Procedures, the *Medicare Financial Management Manual*, chapters 1, 2, and 7, and Trailblazer's contract with CMS;
- reconciled the FACP from FYs 2005 through 2008 to TrailBlazer's accounting records;
- performed analytical tests of TrailBlazer's trial balances;
- selected and reviewed a judgmental sample of invoices, expense vouchers and reports, and journal entries;
- interviewed TrailBlazer officials about their cost accumulation processes for cost proposals and gained an understanding of their cost allocation systems;
- reviewed payroll journals, corporate bonus plans, and personnel records; and
- tested costs for allowability, allocability, and reasonableness.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objective.

RESULTS OF AUDIT

TrailBlazer claimed program administration costs that were reasonable, allowable, and allocable in accordance with part 31 of the FAR and the Medicare contract. Consequently, this report contains no recommendations.
