Office of Inspector General

<http://oig.hhs.gov>

The mission of the Office of Inspector General (OIG), as mandated by Public Law 95-452, as amended, is to protect the integrity of the Department of Health and Human Services (HHS) programs, as well as the health and welfare of beneficiaries served by those programs. This statutory mission is carried out through a nationwide network of audits, investigations, and inspections conducted by the following operating components:

Office of Audit Services

The Office of Audit Services (OAS) provides auditing services for HHS, either by conducting audits with its own audit resources or by overseeing audit work done by others. Audits examine the performance of HHS programs and/or its grantees and contractors in carrying out their respective responsibilities and are intended to provide independent assessments of HHS programs and operations. These assessments help reduce waste, abuse, and mismanagement and promote economy and efficiency throughout HHS.

Office of Evaluation and Inspections

The Office of Evaluation and Inspections (OEI) conducts national evaluations to provide HHS, Congress, and the public with timely, useful, and reliable information on significant issues. These evaluations focus on preventing fraud, waste, or abuse and promoting economy, efficiency, and effectiveness of departmental programs. To promote impact, OEI reports also present practical recommendations for improving program operations.

Office of Investigations

The Office of Investigations (OI) conducts criminal, civil, and administrative investigations of fraud and misconduct related to HHS programs, operations, and beneficiaries. With investigators working in all 50 States and the District of Columbia, OI utilizes its resources by actively coordinating with the Department of Justice and other Federal, State, and local law enforcement authorities. The investigative efforts of OI often lead to criminal convictions, administrative sanctions, and/or civil monetary penalties.

Office of Counsel to the Inspector General

The Office of Counsel to the Inspector General (OCIG) provides general legal services to OIG, rendering advice and opinions on HHS programs and operations and providing all legal support for OIG's internal operations. OCIG represents OIG in all civil and administrative fraud and abuse cases involving HHS programs, including False Claims Act, program exclusion, and civil monetary penalty cases. In connection with these cases, OCIG also negotiates and monitors corporate integrity agreements. OCIG renders advisory opinions, issues compliance program guidance, publishes fraud alerts, and provides other guidance to the health care industry concerning the anti-kickback statute and other OIG enforcement authorities.

Notices

THIS REPORT IS AVAILABLE TO THE PUBLIC
at <http://oig.hhs.gov>

Section 8L of the Inspector General Act, 5 U.S.C. App., requires that OIG post its publicly available reports on the OIG Web site.

OFFICE OF AUDIT SERVICES FINDINGS AND OPINIONS

The designation of financial or management practices as questionable, a recommendation for the disallowance of costs incurred or claimed, and any other conclusions and recommendations in this report represent the findings and opinions of OAS. Authorized officials of the HHS operating divisions will make final determination on these matters.

EXECUTIVE SUMMARY

BACKGROUND

The Health Centers Consolidation Act of 1996 (P.L. No. 104-299) consolidated the Health Center Program under section 330 of the Public Health Service Act (42 U.S.C. § 254b). The Health Center Program provides comprehensive primary health care services to medically underserved populations through planning and operating grants to health centers. Within the U.S. Department of Health and Human Services (HHS), the Health Resources and Services Administration (HRSA) administers the program.

Under the American Recovery and Reinvestment Act of 2009, P.L. No. 111-5 (Recovery Act), enacted February 17, 2009, HRSA received \$2.5 billion, \$2.0 billion of which was to expand the Health Center Program by serving more patients, stimulating new jobs, and meeting the expected increase in demand for primary health care services among the Nation's uninsured and underserved populations. HRSA awarded a number of grants using Recovery Act funding in support of the Health Center Program, including Increased Demand for Services (IDS), Facilities Investment Program (FIP) grants, and Capital Improvement Program (CIP) grants.

Primary Health Care, Inc. (PHC), central Iowa's only community health center, provides medical and dental services to the Des Moines, Iowa, metropolitan area and the Marshalltown, Iowa, area. Under the provisions of the Recovery Act, HRSA awarded PHC three grants totaling \$4,160,596. These grants included an IDS grant in the amount of \$515,367, a CIP grant of \$1,029,800, and a FIP grant of \$2,615,429. This report presents the results of our review of the IDS grant (number H8BCS11897); we are separately reporting on the results of our reviews of the CIP and FIP grants.

OBJECTIVE

Our objective was to determine whether costs claimed by PHC under the IDS Recovery Act grant were allowable pursuant to applicable Federal regulations and the terms of the grant.

RESULTS OF REVIEW

We determined that the \$515,367 in costs claimed by PHC under the IDS Recovery Act grant were allowable pursuant to applicable Federal regulations and the terms of the grant. We are therefore making no recommendations.

INTRODUCTION

BACKGROUND

The Health Center Program

The Health Centers Consolidation Act of 1996 (P.L. No. 104-299) consolidated the Health Center Program under section 330 of the Public Health Service Act (42 U.S.C. § 254b). The Health Center Program provides comprehensive primary health care services to medically underserved populations through planning and operating grants to health centers. Within the U.S. Department of Health and Human Services (HHS), the Health Resources and Services Administration (HRSA) administers the program.

American Recovery and Reinvestment Act Grants

Under the American Recovery and Reinvestment Act of 2009, P.L. No. 111-5 (Recovery Act), enacted February 17, 2009, HRSA received \$2.5 billion, \$2.0 billion of which was to expand the Health Center Program by serving more patients, stimulating new jobs, and meeting the expected increase in demand for primary health care services among the Nation's uninsured and underserved populations. HRSA awarded a number of grants using Recovery Act funding in support of the Health Center Program, including Increased Demand for Services (IDS), Facilities Investment Program (FIP) grants, and Capital Improvement Program (CIP) grants.

Primary Health Care, Inc.

Primary Health Care, Inc. (PHC), central Iowa's only community health center, provides medical and dental services to the Des Moines, Iowa, metropolitan area and the Marshalltown, Iowa, area.

During calendar year 2009, and under the provisions of the Recovery Act, HRSA awarded PHC three grants totaling \$4,160,596:

- an IDS grant in the amount of \$515,367, awarded March 27, 2009, to increase staffing and extend existing services;
- a CIP grant of \$1,029,800, awarded June 25, 2009, to relocate the Outreach Project and Pharmacy to a larger facility in Des Moines, relocate and expand the Marshalltown dental clinic to a new site, and renovate the Marshalltown medical clinic; and
- a FIP grant of \$2,615,429, awarded October 19, 2009, to consolidate billing office space and expand space for both clinical services and administrative functions at the existing East Side Center in Des Moines.

This report presents the results of our review of the IDS grant (number H8BCS11897); we are separately reporting on the results of our reviews of the CIP and FIP grants.

Federal Requirements for Federal Grantees

Title 45, part 74, of the Code of Federal Regulations (CFR) establishes uniform administrative requirements governing HHS grants and agreements awarded to nonprofit organizations. As a nonprofit organization in receipt of Federal funds, PHC must comply with Federal cost principles in 2 CFR pt. 230, *Cost Principles for Non-Profit Organizations* (formerly Office of Management and Budget Circular A-122), incorporated by reference at 45 CFR § 74.27(a). These cost principles require that grant expenditures submitted for Federal reimbursement be allowable.

To help ensure that Federal requirements are met, grantees must maintain financial management systems in accordance with 45 CFR § 74.21. These systems must provide for accurate, current, and complete disclosure of the financial results of each HHS-sponsored project or program (45 CFR § 74.21(b)(1)) and must ensure that accounting records are supported by source documentation (45 CFR § 74.21(b)(7)). Grantees also must have written procedures for determining the allowability of expenditures in accordance with applicable Federal cost principles and the terms and conditions of the award (45 CFR § 74.21(b)(6)).

OBJECTIVE, SCOPE, AND METHODOLOGY

Objective

Our objective was to determine whether costs claimed by PHC under the IDS Recovery Act grant were allowable pursuant to applicable Federal regulations and the terms of the grant.

Scope

Our review included IDS Recovery Act costs totaling \$515,367 that PHC claimed for grant number H8BCS11897 from March 27, 2009, through March 26, 2011.

We did not perform an overall assessment of PHC's internal control structure. Rather, we reviewed only the internal controls that pertained directly to our objective.

We performed fieldwork at PHC's office in Urbandale, Iowa, in September 2011.

Methodology

To accomplish our objective, we:

- reviewed relevant Federal laws, regulations, and guidance;
- reviewed HRSA's Notice of Grant Award;
- reviewed PHC's policies and procedures;
- interviewed PHC officials to gain an understanding of its accounting systems, internal controls and implementation of the Recovery Act grant awards;

- compared PHC's total costs to funds drawn from Recovery Act grants;
- reviewed salary and benefit costs charged to the IDS grant; and
- discussed the results of our audit with PHC officials on September 21, 2011.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our finding and conclusions based on our audit objective.

RESULTS OF REVIEW

We determined that the \$515,367 in costs claimed by PHC under the IDS Recovery Act grant were allowable pursuant to applicable Federal regulations and the terms of the grant. We are therefore making no recommendations.
